Captive Locating Screws

- Captive Locating Screws can be used for Clamping and Locating when used with a Locking Pin Bushing or, when used with an Oversized-Bushing, can provide Clamping only.
- Captive products utilize a Spring Clip to retain the screw in the retracted position.
- Available in thread sizes from 1/4-20 to 1/2-13.
- Made in the USA.

Captive Locating Screws with Hand Knob

- Captive Locating Screws with Hand Knob feature an anodized aluminum Hand Knob for tool-less clamping.
- Can be used for Clamping and Locating when used with a Locking Pin Bushing or, when used with an Oversized-Bushing, can provide Clamping only.
- Captive products utilize a Spring Clip to retain the screw in the retracted position.
- Available in thread sizes from 1/4-20 to 1/2-13.
- Made in the USA.

Captive Clamping Pins with Knurled Knob

- Captive Clamping Pins have a steel knurled knob for tightening by hand and feature a complete thread stop; preventing intentional removal of the Pin from the Locking Pin Bushing.
- Can be used for Clamping and Locating when used with a Locking Pin Bushing or, when used with an Oversized-Bushing, can provide Clamping only.
- Captive products utilize a Spring Clip to retain the screw in the retracted position.
- Available in fine-thread sizes from #10-32 to 3/8-24.
- Made in the USA.

Locking L Pins & Locking T Pins

- These pins, unlike other items in the Captive Product family, do not provide clamping, only locating but do eliminate the need for wire rope assemblies typically included in applications for standard L and T Pins.
- Captive products utilize a Spring Clip to retain the screw in the retracted position.
- Available in pin diameters from 3/16 to 1/2" (6 to 12mm in metric), most in a choice of several pin lengths.
- Made in the USA.

Locking-Pin Bushing

Locking Pin Bushings are available in several styles:

- Slip-Fit Bushings are retained with a Lockscrew for ease of maintenance and a Slip-Fit for high Accuracy.
- Threaded Bushings provide for simple permanent installation but are available only with an Oversized ID.
- Oversized ID Bushings are suitable in applications that require Clamping Only.
- All Locking Pin Bushings feature retainer spring clip on the inside diameter, for use with all types of locking/captive pins and locating screws.
- Made in the USA.
