Tiny Vise® Wedge Clamps

These clamps are made of Tool Steel heat treated to 30-35 Rc and are Nickel Plated for corrosion resistance.

Available in three sizes, from 5/16-18 up to a powerful 5/8-11 thread size with 11,240 lbs of clamping force (M8 to M16 in metric).

Styles shown here have both a serrated face (for maximum gripping) and a smooth face (to avoid marring finished parts).

Tiny Vise® Edge Clamps may appear simple, but offer many benefits. These mini edge clamps securely grip the side of a workpiece to keep the top clear for machining. The patented design features a slotted countersink to provide strong, reliable clamping force with the easy turn of a hex wrench. These compact clamps are ideal for fixturing multiple parts, small or large.
